

Simaran Shaikh

Finance & Data Analytics Professional · B.Com (Financial Accounting) Undergraduate

Ponda, Goa, India — +91 83299 39588 — simaranshaikh04@gmail.com — linkedin.com/in/simaran-shaikh

Professional Summary

Results-driven B.Com (Financial Accounting) undergraduate with hands-on experience analyzing financial data for **100+ companies**, computing **65+ financial ratios**, and delivering end-to-end interactive Power BI dashboards. Holds two concurrent AICTE-registered internships: **Finance Intern & Team Captain** (UptoSkills) and **Power BI Intern** (Microsoft Elevate Program, Edunet Foundation). Certified across five platforms – IBM (AI Literacy, Credly), Microsoft & AICTE (Power BI), TCS iON (AI Literacy), Internshala (Advanced Excel with AI), and a Business Management Programme. Proficient in Advanced Excel, Power BI Desktop/Service, DAX, Power Query (M), star-schema modeling, financial ratio analysis, and AI-assisted analytics. Proven team leader elected as Team Captain of an AICTE intern cohort. Seeking entry-level roles in **Finance, Data Analytics, Business Intelligence, or MIS** at a globally impactful, data-driven organization like Google.

Key Achievements & Quantified Impact

- **100+ Company KPI Analysis:** Structured, cleaned, and validated financial KPI data for over 100 publicly listed companies across FY2022–FY2024, building a comprehensive analysis-ready master dataset from public financial disclosures and annual reports.
- **65+ Financial Ratios:** Calculated and interpreted over 65 ratios per company – profitability (Gross Margin, Net Margin, ROE, ROA, ROCE, EBITDA Margin), liquidity (Current, Quick, Cash Ratios), leverage (D/E, Interest Coverage, Debt Ratio), and efficiency (Asset Turnover, Inventory Days, DSO) – across a 5-year longitudinal window (FY2020–FY2024).
- **Team Captain & Cross-Functional Leader:** Elected Team Captain of the AICTE intern cohort; delegated tasks across data collection, validation, and reporting workstreams; enforced data integrity standards; and consistently delivered against daily check-ins and weekly milestone targets.
- **End-to-End Power BI Dashboard:** Designed and published a production-grade interactive Power BI dashboard – covering Power Query ETL, star-schema data modeling, DAX measure development, and Power BI Service publication – under live industry mentor guidance.
- **Microsoft & AICTE Certified:** Earned a co-branded Microsoft & AICTE certificate by passing the formal Microsoft Elevate Program assessment, validating enterprise-level Power BI proficiency.
- **AI-Augmented Productivity & 8+ Certifications:** Integrated AI analytics tools with Advanced Excel to accelerate throughput; simultaneously earned 8+ credentials from IBM, Microsoft, TCS iON, AICTE, and Internshala while managing two internships and a full-time degree.

Professional Experience

Finance Intern & Team Captain

UptoSkills — AICTE National Internship Initiative

February 2026 – Present

India (Remote)

- **Selection:** Chosen via the AICTE Internship Portal – India's premier government-backed national internship programme – reflecting academic merit and quantitative aptitude.
- **Financial Parameter Analysis (Lead):** Designed a structured data collection framework; gathered, cleaned, and organized KPI data for **100+ publicly listed companies** across FY2022–FY2024 to reporting-ready quality standards.
- **Comprehensive Ratio Engine:** Systematically computed **65+ financial ratios** for 5+ companies across FY2020–FY2024 – including Gross/Net/Operating Margin, ROE, ROA, ROCE, EBITDA Margin, Current Ratio, Quick Ratio, Cash Ratio, D/E, Interest Coverage, Asset Turnover, Inventory Days, and Receivables Days.
- **YoY Trend Analysis:** Conducted multi-year comparative analysis of revenue trajectories, profit/loss movements, and ratio shifts to identify growth inflection points, margin deterioration signals, and efficiency trends.
- **Excel Dashboard Engineering:** Synthesized findings into Advanced Excel dashboards featuring conditional heatmaps for ratio benchmarking, YoY sparklines, summary scorecards, and dynamic Pivot Table cross-filters.
- **Team Leadership:** Delegated tasks, enforced data integrity, ran daily progress check-ins, and held the cross-functional team accountable to weekly milestone targets as elected Team Captain.
- **AI-Augmented Workflow:** Deployed AI analytics tools alongside Advanced Excel to automate repetitive ratio calculations, reduce input errors, and accelerate raw-to-output transformation across the full dataset.
- *Tools: Advanced Excel (VLOOKUP, HLOOKUP, INDEX-MATCH, SUMIF/COUNTIF, Pivot Tables, Array Formulas, Conditional Formatting, Data Validation, What-If Analysis), AI Analytics Tools, Financial Ratio Modeling, KPI Structuring*

- **Selection:** Chosen for the Microsoft Elevate x AICTE Programme (February 2026 Batch) – one of India's most recognised industry-academia BI internships, focusing on enterprise Power BI and modern data analytics workflows.
- **Power Query / ETL:** Built production-grade data pipelines in Power Query (M language) – performing null handling, deduplication, type-casting, conditional column creation, column splitting/merging, and source normalization across Excel, CSV, and relational database inputs.
- **Data Modeling:** Designed normalized star-schema models with dimension and fact tables; established one-to-many and many-to-many relationships; managed calculated columns vs. measures for optimized query performance; applied USERRELATIONSHIP for inactive relationship activation.
- **DAX Development:** Authored a broad DAX measure library including: aggregation functions (SUM, AVERAGE, COUNTROWS, MAX), filter context control (CALCULATE, FILTER, ALL, ALLEXCEPT), iterator functions (SUMX, AVERAGEX), time-intelligence (TOTALYTD, SAMEPERIODLASTYEAR, DATEADD, DATESYTD), and conditional logic (IF, SWITCH) for dynamic KPI computation.
- **Dashboard Design & UX:** Delivered polished, executive-grade dashboards featuring: drill-through detail pages, page/report-level slicers, custom tooltips, bookmarks for guided navigation, dynamic DAX-driven titles, KPI cards with conditional icon formatting, and matrix visuals with conditional formatting – all adherent to data storytelling best practices.
- **Real-World Project:** Solved a live industry business problem under mentor guidance; submitted a structured project presentation; passed the formal programme assessment and earned a co-branded **Microsoft & AICTE** certificate.
- **Tools:** *Power BI Desktop, Power BI Service, Power Query (M), DAX, Star Schema, Data Modeling, RLS, Drill-Through, Bookmarks, Custom Tooltips, Multi-Source Integration (Excel, CSV, Database)*

Featured Projects

Financial Parameter Analysis – 100+ Company Multi-Year KPI Study Feb 2026 – Present — UptoSkills, AICTE Registered

- **Objective:** Build a structured financial performance database for 100+ publicly listed companies across FY2022–FY2024 enabling cross-company benchmarking, ratio trending, and executive-level reporting.
- **Data Collection:** Sourced data from annual reports, stock exchange filings, and financial disclosures; standardized naming conventions, fiscal year alignment, and currency normalization across all entities.
- **Ratio Engine (65+ Ratios):** Built an Excel-based computation engine covering: *Profitability* (Gross/Net/Operating Margin, ROE, ROA, ROCE, EBITDA Margin, EPS); *Liquidity* (Current, Quick, Cash, Operating CF Ratios); *Leverage* (D/E, Interest Coverage, Debt Ratio, Equity Multiplier); *Efficiency* (Asset Turnover, Inventory Days, DSO, Receivables Turnover).
- **Dashboard & Insights:** Delivered an Advanced Excel dashboard with conditional heatmaps, YoY sparklines, Pivot cross-filters, and summary scorecards. Identified YoY profitability inflection points, liquidity stress signals, and efficiency outliers, translating ratio data into actionable financial narratives for weekly team reporting.

Interactive BI Dashboard – End-to-End Power BI Build

Feb 2026 – Present — Microsoft Elevate x AICTE

- **Objective:** Design and publish a production-grade Power BI dashboard solving a live industry business problem, covering the full BI lifecycle from raw data to published interactive executive report.
- **ETL & Modeling:** Ingested multi-format raw data via Power Query; resolved nulls, mismatches, and structural inconsistencies; built a normalized star-schema model with DAX measures for revenue totals, period-over-period growth, YTD accumulations, conditional KPIs, and ranking logic.
- **Dashboard Delivery:** Executive summary KPI page, drill-through detail pages, time-series trend visuals, ranking bar charts, matrix with conditional formatting, dynamic slicers, and bookmark-based navigation for non-technical users.
- **Outcome:** Passed formal assessment; received positive mentor feedback on modeling accuracy, DAX logic, and dashboard usability. Earned co-branded Microsoft & AICTE certificate.

Technical Skills & Competencies

Power BI	Power BI Desktop/Service, Power Query (M), DAX (CALCULATE, SUMX, FILTER, ALL, TOTALYTD, SAMEPERIODLASTYEAR, DATEADD, IF, SWITCH), Data Modeling, Star Schema, RLS, Drill-Through, Bookmarks, Custom Tooltips, KPI Cards, Slicers
Advanced Excel	VLOOKUP, INDEX-MATCH, XLOOKUP, SUMIF/COUNTIF, Array Formulas, Dynamic Arrays, Pivot Tables & Charts, Conditional Formatting, Data Validation, Named Ranges, What-If Analysis (Goal Seek, Scenario Manager), Macros (VBA basics), Power Pivot
Finance	Financial Ratio Analysis (65+ ratios: Profitability, Liquidity, Leverage, Efficiency), Financial Statement Analysis (P&L, Balance Sheet, Cash Flow), YoY Trend & Variance Analysis, Revenue Modeling, KPI Structuring, MIS Reporting, FP&A Fundamentals, Benchmarking
AI & Emerging	AI-Assisted Analytics, Generative AI (Prompt Engineering, Workflow Automation), AI Literacy – IBM Credly Certified & TCS iON Certified, LLM prompt strategies for data analysis and financial reporting automation
Soft Skills	Team Leadership & Mentoring, Cross-Functional Collaboration, Analytical Problem-Solving, Data Storytelling for Non-Technical Audiences, Deadline & Priority Management, Growth Mindset, Intellectual Curiosity

Education

Don Bosco College, Panjim

June 2024 – April 2027 (Expected)

Bachelor of Commerce (B.Com) – Financial Accounting

Panjim, Goa, India

- **Relevant Coursework:** Financial Accounting, Management Accounting, Taxation, Auditing & Assurance, Corporate Finance, Business Law, Economics.
- Actively supplementing coursework with professional certifications in Data Analytics, Power BI, and AI – building a dual-track profile combining core finance fundamentals with modern data skills.
- Concurrently managing two AICTE-registered internships alongside full-time academic commitments, demonstrating exceptional time management and professional commitment.

Deepvihar Higher Secondary School

June 2022 – April 2024

HSSC – Commerce Stream (Accountancy, Economics, Business Studies, Mathematics)

Goa, India

Murgaon High School

Completed April 2022

Secondary School Certificate (SSC)

Goa, India

Certifications & Professional Training

Why Google – Profile & Values Alignment

- **Data over Opinions:** Every analytical conclusion produced across both internships is grounded in quantitative financial data – 100+ company datasets, 65+ ratio models, multi-year trend lines – directly mirroring Google’s data-driven decision-making culture.
- **Focus on the Stakeholder:** All analytical outputs – ratio dashboards, BI reports, trend summaries – were designed with the end-reader in mind, translating complex financial data into clear, actionable narratives for non-technical audiences. This reflects Google’s core principle of building for the user first.
- **AI-First Mindset:** Actively integrates AI tools into analytical workflows; holds IBM AI Literacy (Credly) and Generative AI certifications; applies LLM-based prompt strategies for data analysis tasks. Perfectly aligned with Google’s AI-first organisational strategy and its leadership in Gemini and Vertex AI.
- **Collaborative, Low-Ego Teamwork:** Demonstrated cross-functional leadership as Team Captain – coordinating data collection, validation, and reporting workstreams – reflecting the collaborative, inclusive, and ego-free working style that underpins Google’s engineering and operations culture.

*All certifications verifiable upon request — Open to relocation across India and internationally — Available immediately for internships
& full-time analyst roles*
